Cinematheque was founded in the year 2000 with the primary goal of collecting and preserving Montenegrin films, i.e. the films by Montenegrin filmmakers, films produced in Montenegro and films about Montenegro. It also collects international productions from around the world. The main scope of work of the Cinematheque includes the collection and preservation of the films as well as of film-related materials, such as photos, posters, text documents, advertising materials etc.. The Montenegrin Cinematheque offers screenings of films of great artistic, cultural, historical and scientific importance, and thus gives the audience the opportunity to get insight into national and world film heritage. The Montenegrin Cinematheque opens its doors to all researchers of the film history and theory, film school students and the film fans in general.
